

YOUR MONTHLY WATER USAGE REPORT

SEPTEMBER 2024

Prepared For :
Daniel Gallego

WATER USAGE OVERVIEW

SEPTEMBER | MONTHLY WATER USAGE REPORT

💧 Hey there, (user)!

It's time for your **monthly water report**. Here's how **you** and **WALTER** teamed up to manage your water this past month:

Total Water Used: 12,500 liters

Daily Average Usage: 417 liters/day

Compared to Last Month: ⬆️ +5% increase in water usage

Peak Usage Day: September 18th – 650 liters used (Was it a longer shower or a secret water balloon fight? Either way, *WALTER noticed!*)

Lowest Usage Day: September 10th – 320 liters used

Biggest Water User: Showering – 40% of total usage (Seems like you were staying extra hydrated!) 💧

WATER USAGE OVERVIEW

Leak Detection:

Leaks Detected: 1 minor leak in the kitchen

Leaks Repaired: 1 (Good catch by WALTER!)

Thanks to WALTER, you saved 150 liters of water from going down the drain.

Efficiency Score:

Water Efficiency Rating: B+

Neighborhood Average: A-

You're doing great, but let's see if we can bring that up next month!

Water Saving Tips:

Tip for Next Month: Reduce shower time by 5 minutes per day to save up to 500 liters of water over the month.

(WALTER says every drop counts!)

Seasonal Insights:

Monsoon Tip: During the rainy season, consider rainwater harvesting to reduce reliance on your pipeline water. You could save big on your bills!

Money Matters:

Total Savings This Month: ₹200 from early leak detection and reduced usage.

Keep up the good work, and watch that water bill shrink!

WATER USAGE OVERVIEW

🧐 Looking Ahead:

- Next Leak Check: Scheduled for **October 15th**.
- Don't worry, WALTER's already on it!
- **Seasonal Tip for October:** As the weather cools down, consider reducing water used for outdoor activities like gardening. WALTER suggests focusing on indoor water conservation.
- **Water Goals:**
 - Target for next month: Reduce total usage by 3%.
 - Try out WALTER's shower-timer feature to save time and water!
- **Fun Fact:** A scientist named Pope once published in his research paper that around 3.8 billion years ago, there was 26% more water on our planet. It is one of the most important facts about water.

Thanks for being an AQUA RANGER! 🌍💧

See you next month, and remember, WALTER's got your back (and your pipes)!
